Step 1 To get this guide on how to draw a Fortnite character started, we shall begin with the head of this character. First, draw the face outline as it’s shown in the reference image. Once you have the head outline done, you can then use some curved lines to create his pointy mohawk hairstyle. Step 2 – Draw the mask for this character This Fortnite character drawing features a cool-looking character wearing a mask, so we shall draw that element now. The mask will loop around his ear, and then you can use a curved line from under the strap by the ear over where his nose would be. It will also cover the entirety of the bottom of his face. Step 3 - Next, draw some facial details and the neck In this third step of our guide on how to draw a Fortnite character, you can draw some eyes and eyebrows for his face. These elements are quite small and intricate, so you’ll want to use a thin-tipped pen or pencil and carefully follow the reference image. Once you have these facial details drawn, you can then add the thick collar for his outfit that goes up until his face. Step 4 – Now draw some mask details and his chest You can keep extending some lines down from the collar as we start to add the chest of this Fortnite character drawing. His chest will be quite angular as it extends down from the chest. You can then use some rounded lines for the opening on his shirt that his shoulder will come out of. You can draw an angular, muscular arm coming down from the shoulder in this step. At the bottom of his arm, he is wearing a rather detailed glove that has a few sections and elements to it. Once the arm is drawn, you can then extend his waist down from his chest and add some detailing to his shirt. Step 6 – Next, draw the other arm and his hips Now that you’ve drawn one arm for your Fortnite character drawing, you can draw his other forearm coming out from the side of his waist, as seen in the reference image. Then, use some straight lines coming down from his waist for his hips. Step 7 – Now draw some legs for your Fortnite character drawing This step of our guide on how to draw a Fortnite character will be another one you may want to take slowly! Carefully extend his legs down from his waist, and try your best to replicate the lines in the reference picture to get the angle looking right. Finally, draw his fancy-looking sneakers to finish off this step. You could always use a pencil first if you’re having a hard time with this step, and then go over it with a pen when you’re ready.
